“ To Debbie and Joe and Jimmy and Kelly? I am so sorry for your loss my thought and pray prayers are with you and your family at this most difficult time. Smile Harold you had the most infectious smile that I will always remember as we reminisced while I was purchasing diecast trucks and cars from you at your shop, you were always so kind and fair and I loved our great talks. You will be missed by all.

“ We celebrate the life of a good person and mourn Harold's passage with his friends and family members. We were privileged to have Harold as a member of our "family," and his presence will be missed. Fortunately, we can take comfort in the knowledge that those who live in our memories are never truly gone.
